- Influence of "Cloud Computing" on application systems
- Cloud Computing to realize software developments

2018 – 2019 riskmethods GmbH:

- Solution Consultant: Further develop and demonstrate a leading supply chain risk management solution
- Leading RFP's, solution design, training, implementation support and customer contact person

2013 -2018 AGCO Corporation: (Systems and Project Manager)

- Roll-out of **Robotic-Process-Automation** (RPA)
- Project lead: launch of a digital supply chain risk management solution
- Implement a cloud-based supplier network management solution
- Project lead: roll-out of an eSourcing solution (incl. defining business requirements, business plan, strategy, budget and global standards)
- Establishment of holistic Cost & Spend Management solution
- Various SAP enhancements and optimizations

2010 – 2013 Benteler Group:

- Master Data (Role Concept, Supplier and Material master data)
- Support eSourcing Applications (eAuctions, webEDI und eRFX)
- Assisted SAP SRM Rollout & SAP Release changes

Project Experience - Selection

- Digitalization: **Developed** Robotic Process Automation (RPA) Procurement solutions, Artificial Intelligence, Augmented reality and BigData. Result: Efficient and leaner Procurement processes driven by innovative technologies
- IT-Strategy development to define global Procurement ecosystem, business and systems needs, tech. infrastructure, interfaces and data sources to enables a newly designed organization to function and collaborate globally.
- eSourcing: Implementer, Product Owner and Admin of different global eSourcing platforms (business needs, selection, setup and implementation). Lead strategy development, execution of worldwide user training, standard templates design and system enhancements.
- Global leader of AGCO's digital Supply Chain Risk Management program.
- Lead user **lifecycle management activities** - design, maintenance and harmonization of SAP authorizations.
- SAP enhancements: Development, conception, optimization and implementation of new SAP functions incl. general release changes
- Lead global master data harmonization of supplier and material master data (supplier harmonization, material classification, material group codes, etc.)
- eCatalog Management SAP SRM (Supplier Relationship Management).
- Conception and implementation of supplier management solution to gain a 360 supplier views (incl. master, risk, cost savings and performance data).
- SAP BI: Development & implementation of standardized material reporting

Implemented & well-known Solutions (Selection) & Awards

- ✓ SAP: MM, SAP SRM, SAP Spend Mgmt, ABAP
- ✓ Sourcing Suites: Newtron, Synertrade, Zycus, SupplyOn, Coupa, DIG
- ✓ Supplier (Risk) Management: SAP Ariba, meercat, riskmethods, D&B, DHL360, resilinc
- ✓ Financial Information: D&B/Bisnode, CreditSafe, BvD
- ✓ RPA: BluePrism, UiPath
- ✓ Award: BME Excellence in eSolutions 2015 – Risk Management
